

# Beacon Community of the Inland Northwest Project

## Statement of Interest

The Beacon Community of the Inland Northwest project will focus on using health information to improve care coordination and chronic disease management, within and between health care organizations. While the intent of the project will be overall care coordination and chronic disease management, adult type 2 diabetes will be used for tracking specific measures to show progress within practices and across the region. Participating organizations will receive access to electronic health information exchange and to technical support and training for implementing care coordination within and between health care organizations.

By submitting this statement of interest, the listed organization is only expressing interest in participating in the project. This is not a commitment to participate, nor is it a guarantee that the organization will be selected to participate. Final decisions by both INHS and the potential participants will be made after an assessment of all potential participants and upon award of any federal funding.

**Date:** \_\_\_\_\_

**Organization Name:** \_\_\_\_\_

**Organization Address:** \_\_\_\_\_

**Organization City, State and Zip Code:** \_\_\_\_\_

**Contact Person Name:** \_\_\_\_\_

**Contact Person Telephone Number:** \_\_\_\_\_

**Contact Person Email Address:** \_\_\_\_\_

### Compliance with Inclusion Criteria:
